

On-the-Job Training (OJT) allows you to learn a new trade while earning wages to support yourself and your family. What we do is simple – we help you find a job in your community and your new employer will train you to learn a new skill!

- Earn while you learn
- No cost to you to enroll – we pick up the cost of training
- Our team supports you every step of the way

To find out more about OJT and other services contact the American Job Center nearest you.

TALK ABOUT OJT

On-the-job training gives someone enough time to learn any trade if they are willing to learn.
