Denison has always had troubles with any kind of Internet and Cell signal for years. There has always been talk by the government that no child is left behind. We've been in this pandemic for ( 2 ) years now and if kids are going to be sent home with computers to do their school work online they need dependable internet that will provide access when the stay at home policies are in effect.

The Giant Communications proposal to provide up to 1 Gigabit residential and business internet service to the City of Denison will be extremely beneficial to the community. My residence current internet speed tested at 9.88--nowhere near what I am supposed to get. We have people who want to work from home and do not have dependable internet service. We cannot attract new residents if dependable and faster internet is not available. With the Giant trunk line already in place, this is a logical next step to expand into the rural areas.
