----------------------------	------------

Please provide name:	<b>Wendy Crenner</b>
Please provide your address:	<b>215 S. Iliff Street Medicine Lodge Kansas 67104 US</b>
Please provide your phone number:	<b>+18777236875</b>
Please provide your email contact:	<b>marketing@sctelcom.com</b>
Are you responding on behalf of an organization?	<b>No</b>
Which of the following best describes you? (Check all that apply)	<b>Internet provider in proposed service area</b>
I am providing comments related to the following application (comments must be filed individually for each project):	<b>SCTELCOM_HarperCo_CPF</b>
I am submitting comments to express:	<b>Support for a project</b>

<p>Please provide your comments in the text box below:</p>	<p><b>Below is a letter of support from a resident in our proposed project area at 612 NW 90 Ave in Attica, Kansas.</b></p> <p><b>We are very excited by the news that SCTelcom is applying for these funds to build fiber in rural Harper County which would make it finally possible for our household to have fiberoptic internet services where we live. Currently I have Sumner communications and I struggle with the ability to have fast enough internet to stream some of the TV we want to watch or work WIFI on our phones as currently it appears if our phones which often are used for paying bills and such do not run on the WIFI. We also have school aged children of which now homework is mostly internet based and they need to utilize it and when I have to work from home at times it is best to have good reliable fast internet especially when working and someone else in the household is trying to either do homework or a toddler watching his favorite TV so I can do my work. We are also looking into a personal business and being internet based to work on billing and of course bank tracking requires good internet also. We did have a timeframe there where we had to do online school during COVID and we need our internet to be fast and able to stream multiple online classes or zooms at the same time without fail when this occurs. We have had some issues with communications failing and requiring one child to get a good lesson in and the other not so much. We have been hoping for several years since living in town and having the fiber optics and then moving out to our country home and not having it that we could someday have SCTelcom be able to provide this to our household.</b></p> <p><b>Tiffany Shilling</b></p>
<p>Upload supporting documentation - multiple files should be submitted as a .ZIP file.</p>	<p>n/a</p>
