Below is a letter of support from a resident in our proposed project area at 551 NW 50 Road in Harper, Kansas.

August 29, 2022

To whom it may concern,

This letter is in support of SCTelcom's efforts to secure funding to build and expand a fiber network in Harper County. My farm business is very dependent upon having a strong internet connection.

My current wireless service isn't very reliable mainly due to distance from the tower transmitting the signal. I often order parts for vehicles and equipment used on my farm and I often have to spend extra time dealing with the slow or intermittent service.

With more and more agriculture agencies using the internet to correspond with producers, I am very interested in having a more reliable connection to receive and send farm related correspondence from government agencies, the bank, the insurance companies and others necessary for running a farm business today.

I strongly support SCTelcom in their efforts to supply better broadband to my home and other farms in our rural Harper County area.

**Sincerely,
Eric Mathes**
