Below is a letter of support from a resident in our proposed project area at 449 NW 70 Road in Harper, Kansas.

We really are excited to have high speed internet. We have a small chemical business and hay business out by crystal springs in Harper county. We also have a meat business as well that we retail meat from. The high speed internet will allow us to have monitors on our freezers to keep a eye on the temperature. We will also use the internet for our security system. Due to Covid we are experiencing really high chemical prices so the cameras will help cut down on theft and leaks for us.

We also use the internet to monitor our irrigation system in real time from our phones so we can change rates and directions from long distances away. Since we don't live at the place of business the internet is vital to keeping our shop and freezers safe and monitored.

**Thank you
Darrin Eck**
