**Eagle Broadband Investments, LLC dba Vyve Broadband currently provides broadband internet service to the City of Franklin at speeds exceeding 100 Mbps down and 20 Mbps up, with the majority of the city upgraded to receive 1000 Mbps down and 50 Mbps up. Please find attached a shapefile of our existing service footprint, a point shapefile indicating served locations, as well as photographed speed tests evidencing our current level of service. We believe that the city is already served per the grant program's rules, and that the use of grant funds towards applicant's project would result in considerable overbuilding. Please reach out to us should you have any questions or concerns.**
