Please provide your name:	<b>Traci Thompson</b>
Please provide your address:	<b>22 W Spruce St Miltonvale KS 67466 US</b>
Please provide a phone number:	<b>+17854279259</b>
Please provide your email address:	<b>traci.thompson@tvttinc.net</b>
I am providing response comments related to the following application (choose one):	<b>TVT_NORTHCENTRALKS</b>
I am responding to the concern that this project:	<b>Other</b>
Please describe:	<b>AMG Technology Kansas (dba Nextlink) submitted challenge 0288 contesting the TVT_NorthCentralKS application stating that Nextlink has been awarded federal funds through the CAF and RDOF reverse auctions to serve the proposed project area with service at a minimum level of 100/20, deeming the areas served.</b>

Please provide your response to the public comments received in the text box below:

**Twin Valley is responding to the challenge submitted by AMG Technology expressing concern for a portion of the TVT application proposing to serve two rural Bennington areas, in Ottawa and Saline Counties, with up to 2 Gbps symmetrical fiber internet.**

**AMG stated that the area falls in RDOF and CAF obligated AMG areas. While this is true, AMG's RDOF and CAF awards were based on providing wireless service in the proposed serving area. While fixed wireless service meets the current 100/20 required service to some of the passings within a defined propagation, the technology is not a ubiquitous solution and therefore falls short of reaching the greatest number of residents and business in Twin Valley's proposed fiber investment. Fiber is the best solution for the future of broadband.**

**The proposed area falls within Twin Valley's ILEC exchange with a smaller portion bordering which provides a more efficient and accelerated build to the area. Twin Valley has a proven track record of building and maintaining a scalable fiber network that provides cutting edge connection speeds (up to 2 Gbps symmetrical) at an affordable rate.**

**We currently partner with federal and state government agencies to provide the Affordable Connectivity Program (ACP), Lifeline, and Kansas Emergency Rental Assistance benefits, which helps foster digital inclusion in the state of Kansas. We also have a new 'free' offering available to ACP qualified consumers.**

**Through the partnership we have formed with Ottawa County and State leaders and representatives, as reflected in our application submission, Twin Valley will provide the service this area deserves so it can continue to thrive.**
