☒ My existing service isn't reliable. ☒ I don't receive the speeds I pay for.

**Need for New Service**

Please select the areas where access to fiber internet would benefit you or your family:

- ☒ Remote learning and education ☐ Remote work / work from home  
☒ Telehealth and telemedicine ☐ Managing my business  
☒ Other, please specify: Customer choice! Bringing Herndon up-to-date  
Could attract people to move -in, or stay.

**Additional Comments**

Vyve broadband would help bring a choice of  
internet provider to Herndon. Service now is spotty  
and depends on location. Dedicated broadband would  
allow all residents the ability of service. Phone lines are also  
extremely unreliable.

I have heard about Vyve Broadband's efforts to bring high-speed fiber internet to my community, and I support their grant application to the Kansas Capital Projects Fund Broadband Program.
