I am submitting comments to express:

Concerns regarding a project

I am sharing concerns about the project:

**Proposes to serve an area that already has service
Proposes to serve an area likley to be served without grant funds because plans are in place to serve this area, although construction has not yet begun**

Please provide your comments in the text box below:

I am opposed to Vyve receiving tax payer funded grant money for this project which is in part to overbuild my existing cable company that already provides 100/20 internet service to all residents in our service area, which is outlined in my attachments. This can also be proven through our other attachments and FCC 477 and FCC BDC filings. Other information in my attachment is copies of 3 different customer billings (names and address's redacted) for our 100/20 service, outline of our service area and screenshot from our website <http://www.atwoodcable.com/internet.htm> advertising our internet offerings and our customer handouts advertising our services. I have also attached a document with more detailed information on why this project should not be funded with taxpayer money.

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
