I am providing response comments related to the following application (choose one): **Brightspeed_Barton**

I am responding to the concern that this project: **Proposes to serve an area that already has service**

Please describe: **Cox's challenge is that they presently provide an existing level of service in Barton**

Please provide your response to the public comments received in the text box below:

Cox’s public challenge to Brightspeed Barton regards an existing level of service being present in Barton County. Cox has failed to satisfy the state’s requirement that evidence must include information beyond FCC data for an area to be considered served, since Cox has not substantiated their assertion with any documentation (e.g., speed tests indicating that the claimed speeds, are, in fact, available). Cox’s contest on leveraging private funds to “build out significant portions of Barton” by August 2023 does not mention the main area of focus in our application, Ellinwood, nor the smaller area location of our two builds, Claflin.

Please provide supporting documents relative to your comments. Please submit multiple files as a ZIP file.
