I am providing response comments related to the following application (choose one):	<b>Brightspeed_Jefferson</b>
I am responding to the concern that this project:	<b>Proposes to serve an area that already has service</b>
Please describe:	<b>Giant's challenge is that they presently provide service in Jefferson County</b>

Please provide your response to the public comments received in the text box below:	<b>Giant’s challenge to Brightspeed Jefferson centers around an existing level of service being present in Jefferson County. Giant has failed to satisfy the state’s requirement that evidence must include information beyond FCC data for an area to be considered served, since Giant has not substantiated their assertion with any documentation (e.g., speed tests indicating that the claimed speeds, are, in fact, available). We would like to underscore that by the KS Broadband guidelines, “comments with insufficient evidence or documentation will not be considered.” Since Giant’s Brightspeed Jefferson challenge only provides an unsubstantiated comment that they provide service, we would ask the state to not consider this comment.</b>
