I am providing response comments related to the following application (choose one):	Brightspeed_Johnson
I am responding to the concern that this project:	Proposes to serve an area likely to be served without grant funds because plans area in place to serve this area, although construction has not yet begun
Please describe:	Comcast's challenge is that they have a planned future build in Johnson that has yet to begin construction

Please provide your response to the public comments received in the text box below:	The public challenge commentary for Brightspeed Johnson from Comcast regards a planned future build that has yet to begin construction. Comcast has failed to provided sufficient evidence that the construction timeline provided for their challenge to Brightspeed Johnson adequately satisfies the state’s requirements that the build be completed within 18 months. Without concrete evidence (e.g., signed contracts for material procurement and labor agreements with construction crews), Comcast has failed to satisfy the burden of proof laid upon them, particularly given the prevailing shortages in the supply chain and of skilled labor that must be mitigated. In contrast, we have provided evidence of our contracts in place and additional preparations underway in our application to prove our timeline fits the state’s requirement.
