**I believe Brightspeed's proposal for Miami County\_Osawatomie, is of the most benefit to our community. Our position just south of the Kansas City metro has afforded us many benefits over the years, including easy access to metropolitan job opportunities and leisure activities. However, it has not afforded us many benefits in our own homes. As many of those metro jobs transitioned to remote opportunities during the pandemic, and many schoolchildren found alternative ways to continue education from home, it became evident that our rural community was facing an unrealized hardship -- unstable internet and patchwork coverage. As our world continues the transition to digital quality of life services as the norm, including e-government solutions and telehealth, having a reliable highspeed provider becomes all the more important. Brightspeed is offering a solution specifically tailored to our oft-forgotten rural community.**
