I am providing response comments related to the following application (choose one):	<b>Brightspeed_Wilson</b>
I am responding to the concern that this project:	<b>Proposes to serve an area that already has service</b>
Please describe:	<b>KwiKom's challenge is that they presently provide service in Fredonia and Altoona</b>

Please provide your response to the public comments received in the text box below:

**KwiKom’s challenge to Brightspeed Wilson centers around an existing level of service being present in Fredonia and Altoona. KwiKom has failed to satisfy the state’s requirement that evidence must include information beyond FCC data for an area to be considered served, since KwiKom has not substantiated their assertion with any documentation (e.g., speed tests indicating that the claimed speeds, are, in fact, available). If the contested area is verified to be served, we request the state allow us to modify our application considering this valid challenge.**
