### Support for a project

Please provide your comments in the text box below:

**These proposed improvements would increase access to service in an underserved area of Miami County. We have heard from families that service needs to improve for educational, healthcare and workforce uses. Work-from-home and telehealth uses have remained steady even as Covid restrictions have abated. With the regional employment opportunities including the Panasonic and Garmin expansions, we anticipate even more pressure on our region for a workforce that has a highly technical skill set. We support this project as proposed.**

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
