**I want to state my support for this project for the City of Coffeyville. They have been working hard to expand their fiber network and getting this service available to rural customers will be a game changer for the area. People who live just outside of town have very limited access to high speed internet and what is available is expensive. The company that I work for is currently on the Cities fiber network and the pricing is very reasonable and the service is very reliable. We have had no issues for the if this same service will be available to people outside the city at the same pricing, it will be a great asset to the area.**
