Having reliable broadband at Lake Wabaunsee, Kansas would be a game changer for our family. At this time, only 1 or on good days, 2 people maximum, can use the internet at our home for work (my husband and I) or our children for their school work. When 2 or more people are using the internet, it slows to a glacial pace and we, as a family, have to prioritize whose work is more critical at any given time. There are often times that our current service isn't available which is frustrating. During the times our wifi isn't working, our phones won't work due to the limited cellular service in the area so emergency services aren't reachable should there be an emergency.

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
