**Epic Touch has been nothing short of amazing for our community with their installs of fiber internet throughout our community. They've utilized each grant they've received to help improve our options for affordable, reliable, and very fast internet service that will only help to progress our community forward. Their customer service has been top notch and very professional after their installs and it has been great to have a local company come in to help improve our community. I first got their service at my local residence and then had our bank branch here in town convert over as well. It's been a huge improvement being able to call someone locally if, which has been very few times, we have issues or need something looked at our location. Our other provider wouldn't have near the service and contact like Epic has. I highly recommend Epic for any assistance and grant that they are applying for.**
