**I have a farm residence in the proposed project area. In 2011, with three school aged children, we made the difficult decision to move off of the farm and into town in part because we were unable to access high speed internet capable of handling the educational needs of our children. I now have a son who has moved back to the farm and is looking to start a family. Without this project, he will surely face the same dilemma we did at that time. As a member of the local school board, I witnessed firsthand the struggles we had trying to deliver online instruction in the rural areas of La Crosse and Liebenthal during the Covid pandemic. The inability to access technology cannot be the limiting factor in educating our children. I fully support GBT Communications attempt to secure funding to assist in delivering high speed internet to the rural areas of La Crosse and Liebenthal.**
