Please provide your comments in the text box below:

I am currently unable to access high speed internet. I have a golden belt telephone fiber line within 200 yards of my house but due to current policy, I'm not allowed to access it. The current underground provider for the area chooses not to acknowledge my attempts to contact them. I have been running on wireless but it is far from ideal. I am unable to attach a photo of my download speeds, but my current speed for download is 4.71 mbps and upload is 3.04 mbps. Please understand, this is less than acceptable considering people in the near vicinity have fiber to the house. Hopefully you will see the need in our area. Thank you

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
