Original Submission	09/29/2022
----------------------------	------------

Please provide your name:	Carlee Parker
Please provide your address:	111 Old Mill Ln Buhler KS 67522 US
Please provide a phone number:	+16208996519
Please provide your email address:	cparker@ideatek.com
I am providing response comments related to the following application (choose one):	IdeaTek_Kingman4
I am responding to the concern that this project:	Proposes to serve an area that already has service
Please describe:	In response to public comment 0192, nextlink

Please provide your response to the public comments received in the text box below:

Attached is evidence showing that Nextlink actually advertises and sells service with “up to” 10mbps upload, not the 20mbps upload their challenge maps indicate. We randomly sampled locations in our proposed area, and all locations either indicate upload have a maximum “up to” speed of 10mbps, or service is not available at all. See attached samples taken on or around September 28th, 2022.

Further, Nextlink has a regulatory obligation to file accurate and truthful service data with the FCC in its form 477 filings. Ideatek made certain not to apply for any areas which were served by the FCC’s most recent 477 data dated June 2021. Nextlink’s filings in this proposal area indicated 100/10mbps service, which corroborates their own website advertising. See attached FCC 477 data.

Ideatek also points to the significant community support and reference letters in our applications. We believe this support for Ideatek would not exist if Nextlink was providing sufficient service for the broadband priorities of the communities involved in the project.

This challenge should be rejected on its face for misrepresentation.

Please provide supporting documents relative to your comments. Please submit multiple files as a ZIP file.
