<b>Original Submission</b>	09/08/2022
----------------------------	------------

Please provide name:	<b>Kasey Krueger</b>
Please provide your address:	<b>PO Box 707</b> <b>Ulysses</b> <b>KS</b> <b>67880</b> <b>US</b>
Please provide your phone number:	<b>+16203563211</b>
Please provide your email contact:	<b>kasey.krueger@pioncomm.net</b>
Are you responding on behalf of an organization?	<b>Yes</b>
Please provide the name of the organization and address for which you are submitting comments:	<b>Pioneer Communications</b>
Which of the following best describes you? (Check all that apply)	<b>Internet provider in proposed service area</b>

I am providing  
comments related to  
the following  
application  
(comments must be  
filed individually for  
each project):

**IdeaTek\_Route83Corridor**

---

I am submitting  
comments to  
express:

**Concerns regarding a project**

---

I am sharing  
concerns about the  
project:

**Proposes to serve an area that already has service**

---

Please provide your comments in the text box below:

**Pioneer Communications hereby respectfully submits public comments to portions of Ideatek's "Route 83 Corridor" project proposal for the Kansas Broadband Capital Projects Fund grant.**

**We have significant concerns about Ideatek's proposal to use CPF grant funds to overbuild Pioneer Communications network in the Holcomb area (see exhibit 1). Pioneer Communications owns and operates a coaxial network in Holcomb, KS and has been providing service to the area since the mid-1990's. In 2019, the Holcomb network was upgraded to a DOCSIS 3.0 network bringing 500Mbps/ 25 Mbps capability. In April 2022, Pioneer Communications ordered equipment to upgrade the Holcomb network to a DOCSIS 3.1 network allowing speed capabilities of 1Gbps/ 1Gbps.**

**Based on the public maps available in the CPF application, it appears that Ideatek proposes to overbuild approximately 135 Holcomb locations that are currently served by Pioneer Communications and have current network capable of 500Mbps/25Mbps (see exhibits 2 & 3) with 1 Gbps/ 1 Gbps capability in October 2022 (see exhibit 4).**

**Attached is documentation showing the overlapping network areas, speed tests, technical data pertaining to the capabilities of the current network, as well as a summary of equipment currently installed and equipment to be installed in the next 45 days.**

**While Pioneer Communications respects Ideatek's effort to provide service for residents of rural Southwest Kansas, we do not believe that overbuilding a current robust network meets the goals of the CPF grant program to serve the unserved are met by overbuilding existing infrastructure. Please do not hesitate to contact us should you have any questions or require any additional supporting documentation.**

**Attached are supporting documents for your evaluation that include:**

- Exhibit 1 – areas of concern**
- Exhibit 2 – Pioneer Communications network & overlap**
- Exhibit 3– Proof of current 500/25Mbps capability**
- Exhibit 4 – Proof of 1Gbps/ 1Gbps capability in the near future**
- Exhibit 5 – Current services offered**

---

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
