

In the vast majority of Ideatek's Garden City network they share a trench and locate posts with Finney County while utilizing separate vaults. These pictures show the locate post from the starred location on the above map from the intersection of Mary St. and Kansas Ave.

Ideatek's network was constructed using CARES Act CERF funds through the Finney County CERF project. Below is a map from the Finney County Fiber Optic Network Construction RFP that Ideatek responded to and was awarded. Ideatek built the Finney County network but also installed a conduit of their own by offering a discount to Finney County and is providing service along the routes. The RFP, Ideatek's response to the RFP, Master Construction Agreement, and County Commission minutes can be found in the supporting documents.
