Please provide your comments in the text box below:

I believe this project would help to provide a much needed service through a largely unmet part of Southwest Kansas, particularly in Haskell County. For true "high-speed" internet service we are limited to one provider who uses a copper plant that that does not meet modern data needs. This project helps bring Haskell County and surrounding area residents and business owners a much faster service and potentially more competition for the other local ISPs to hopefully follow suit.

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
