Please provide your comments in the text box below:

**We are in desperate need for more reliable high-speed internet in our community. The highway 83 corridor is one of the most prosperous areas in the state due to the large numbers of cattle on feed and irrigated acres of crop production. There are so many opportunities that reliable high-speed internet can provide production agriculture. We support Idea-Tek and their vision to bring high-speed reliable internet to rural areas. They have already proven their ability to successfully do this in other areas of rural Western Kansas.**

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
