Please describe:	Providing Comment Response to Cox's public comments on LR Communications Rice County application.

Please provide your response to the public comments received in the text box below:	<p>Cox provides services to the communities of Lyons and Sterling specifically in Rice County, we did not include these areas in our application. If there is any overlap it is likely directly due to the following reasons. 1.) Our proposed fiber connections reaching one side of a census block and their cable connections touching the other side or 2.) The data was not reflected in the 477 or other mapping resources to reflect 100/20 when we engineered the build and they built additional locations more recently that were not reflected. LR communications would be happy to remove these locations from our proposal if we they are truly served.</p> <p>If we could identify the specific locations in question we would be happy to provide more supporting documentation and or letters from those folks that live in the specific locations of concern.</p>
