<b>Original Submission</b>	08/10/2022
----------------------------	------------

Please provide your name:	<b>Marcus Kasitz</b>
Please provide your address:	<b>8633 W. 311th Street Louisburg KS 66053 US</b>
Please provide your phone number:	<b>+19138373527</b>
Please provide your email contact:	<b>MKASITZ@HOTMAIL.COM</b>
Are you responding on behalf of an organization?	<b>No</b>
Which of the following best describes you? (Check all that apply)	<b>Resident in proposed service area</b>
I am providing comments related to the following application (choose one):	<b>Mokan Dial - East Paola-South Louisburg</b>
I am submitting comments to express:	<b>Support for a project</b>

Please provide your comments in the text box below:

**Currently we have been living in the outskirts of Louisburg for 22 years and have always been limited to the internet services available. Although MOKAN Dial does offer services in town that would be capable of 100Mb/s down the Physical Hardware hardware infrastructure that runs along in front of our property does not support anything greater than 6Mb/s Down and 1Mb/s Up. We do have limited work from home capabilities however this connection is stressed when needing to submit files to work due to the uploads taking possibly upwards of hours. While transfers are done the service becomes unavailable or useless to anything else due to the saturated connection creating high packet loss. This can cause larger issues when the connection loss is so high that the upload or download needs to restart due to the files being canceled.**

**MoKan Dial is the only service we are able to obtain at this time as any form of WISP or other connections do not service our area due to depression in the terrain. This includes KwiKom communications as well as GoBrolly.**

**I have provided the Public Proposal as well as the kmz proposed map along side a current speedtest with our unused connection today. <https://www.speedtest.net/result/13524162974>  
Please consider this proposal to increase the quality of service in our area**
