This project in the unincorporated area of Miami County would help students attending our schools have better access to educational opportunities. In addition, the area has a growing number of families who have undertaken home schooling. This area needs improved resources for them to access many programs.

Our public school system is great, but frankly our public library is less than stellar. They do what the can but are part of the Johnson County system and offer very limited services and hours. The city has offered wifi space for students after school, but more needs to be done to help our nontraditional students.

Upload supporting documentation - multiple files should be submitted as a .ZIP file.
