Original Submission 08/03/2023

Please provide name **Darrin Hiebert**

Please provide address (Not required) **8502 W Dutch Ave
Hesston
KS
67062**

Please provide email **dkhiebert1@gmail.com**

Please provide phone number (not required) n/a

Are you responding on behalf of an organization? **No**

Organizational affiliation (If applicable) n/a

The Kansas Office of Broadband Development (KOBD) is in the process of developing its BEAD Initial Proposal as required by the NTIA. This initial plan is divided into Volume 1 and Volume 2. Volume 1 includes initial identification of unserved and underserved locations, definition of community anchor institutions, proposed pre-challenge process location modifications, and the model challenge process. Please use this link to review the entire Initial Proposal Volume 1 document, and feedback on Volume 1 will be captured in the text boxes below. The comment portal will be open from August 1, 2023 through August 30, 2023. KOBD will then review all feedback and submit the Initial Proposal to the NTIA. To access a full copy of Volume 1 of the BEAD Initial Proposal along with accompanying documents, please use the links below:

I am responding to comments related to the following Volume 1 requirements **Requirement 5: Identification of existing unserved and underserved broadband locations**

Comments relating to Requirement 5: Identification of existing unserved and underserved broadband locations

We live in a "bubble" zone where we don't have any great options. Wireless is available, but is expensive for the thruput that you get. Fiber is 1.5 miles away from 2 different providers, and neither one of them have intentions of coming our direction. We also live in a rural community that has approximately 20 households in a 1/2 mile radius.

Cellular is also available, but can have issues with speed and connectivity

Darrin Hiebert
