Are you responding on behalf of an organization? **No**

Organizational affiliation (If applicable) **n/a**

The Kansas Office of Broadband Development (KOBD) is in the process of developing its BEAD Initial Proposal as required by the NTIA. This initial plan is divided into Volume 1 and Volume 2. Volume 1 includes initial identification of unserved and underserved locations, definition of community anchor institutions, proposed pre-challenge process location modifications, and the model challenge process. Please use this link to review the entire Initial Proposal Volume 1 document, and feedback on Volume 1 will be captured in the text boxes below. The comment portal will be open from August 1, 2023 through August 30, 2023. KOBD will then review all feedback and submit the Initial Proposal to the NTIA. To access a full copy of Volume 1 of the BEAD Initial Proposal along with accompanying documents, please use the links below:

I am responding to comments related to the following Volume 1 requirements **Requirement 5: Identification of existing unserved and underserved broadband locations**

Comments relating to Requirement 5: Identification of existing unserved and underserved broadband locations

How do I correct the FCC Area Summary map for fixed/mobile broad band coverage? It shows I have 100% coverage which is false. I do not have cellular coverage and would be considered unserved for broadband service. This designation from the FCC will not allow me to qualify for Starlink internet. I'm running out of options.

Chris Breeden
