Please provide email **davidnor@sbcglobal.net**

Please provide phone number (not required) **+17852012780**

Are you responding on behalf of an organization? **No**

Organizational affiliation (If applicable) **n/a**

The Kansas Office of Broadband Development (KOBD) is in the process of developing its BEAD Initial Proposal as required by the NTIA. This initial plan is divided into Volume 1 and Volume 2. Volume 1 includes initial identification of unserved and underserved locations, definition of community anchor institutions, proposed pre-challenge process location modifications, and the model challenge process. Please use this link to review the entire Initial Proposal Volume 1 document, and feedback on Volume 1 will be captured in the text boxes below. The comment portal will be open from August 1, 2023 through August 30, 2023. KOBD will then review all feedback and submit the Initial Proposal to the NTIA. To access a full copy of Volume 1 of the BEAD Initial Proposal along with accompanying documents, please use the links below:

I am responding to comments related to the following Volume 1 requirements **Requirement 3: Identification of existing broadband efforts
Requirement 5: Identification of existing unserved and underserved broadband locations**

Comments relating to Requirement 3: Identification of existing broadband efforts

I just want to know what federal and state expansion monies are going to what agencies. In Salina, I'm aware of 3 entities installing fiber wire (or announcing that intent): Clearwave, AT&T, and Nextech. I question whether Salina even needs faster speed tech for home use. Don't know about business.

What's going on and what funds are allocated to these entities and in what amount? Seems to me the public has a right to hat information. Thanks!

Comments relating to Requirement 5: Identification of existing unserved and underserved broadband locations

I just want to know what federal and state expansion monies are going to what agencies. In Salina, I'm aware of 3 entities installing fiber wire (or announcing that intent): Clearwave, AT&T, and Nextech. I question whether Salina even needs faster speed tech for home use.
