Creating Success for Your Community

The Community Service Tax Credit Program provides an opportunity for private nonprofit organizations and public healthcare entities to improve their ability to undertake major capital campaigns for projects involving community service including childcare, non-governmental crime prevention, healthcare, youth apprenticeship and youth technical training.

Under this program, the state authorizes select nonprofit organizations to offer tax credits to donors making contributions to the approved projects.

Due to the strong demand for these credits, organizations awarded credits may receive less than the full amount of credits requested.

HOW DOES THE PROGRAM WORK?

Community service organizations submit applications for review and if selected are awarded by the Kansas Department of Commerce. This is a competitive process. Not all applicants will receive tax credit awards. The proposed projects should be new or one-time in nature and create lasting value for the charitable organizations (e.g., capital campaign, major equipment purchase, major renovation, capacity building, etc.) It is the responsibility of the nonprofit organization to solicit donations, complete the necessary paperwork and send the information to the Kansas Department of Commerce for processing. If your organization has not yet been incorporated as a nonprofit corporation or foundation, you are not eligible to apply for an allocation of tax credits. An exception to this rule is if your organization can partner with a nonprofit entity that is willing to apply on your behalf. For example: A school district on its own could not apply since it is a government entity, but if a community foundation applied on the school district's behalf, the application would be eligible for review.

Applications submitted will be reviewed and rated by an agency committee appointed by the Secretary of Commerce. Nonprofit organizations whose applications are approved will receive a credit authorization letter specifying the amount of tax credits available for the project. If your organization chooses to accept the offered credits, you will enter a signed agreement with the Department of Commerce.

Upon acceptance, successful applicants are required to attend a two-hour training session during which the Kansas Department of Commerce staff provide information on the various responsibilities and administrative procedures of the program. Program materials will be distributed at that time to assist with administration of the Community Service Tax Credit Program project.

Following the training, the nonprofit is authorized to offer tax credits for qualified contributions received during the eighteen (18) month period of July 1, 2024, to Dec. 31, 2025. Contributions can be received no sooner than July 1, 2024. No organization is eligible to receive an extension beyond Dec. 31, 2025. Beginning July 1, 2025 Commerce will assess the use of credits and may begin reducing credit balances if it is determined credits are being underutilized.

The percentage of credits awarded to the donor is dependent on the location of the charity (not the location of the contributor). Eligible donors may receive a credit equal to 70 percent of the amount contributed if the community service organization is in a rural community (less than 15,000). If the community service organization is in an urban community (more than 15,000), eligible contributors receive a credit equal to 50 percent of the amount contributed. All Johnson County applicants, regardless of community size, are eligible for a 50 percent credit.

Credit Allocation Plan

The Kansas Community Service Tax Credit Program will award \$4.1 million in tax credits for eligible projects in FY2024. The maximum award of tax credits is \$200,000 per project.

If requests for credits exceed the amount available and all other scoring factors are equal, priority will be given to applicants not previously awarded.

The Kansas Department of Commerce will evaluate the credit utilization of every project.

Commerce reserves the right to reduce the amount of tax credits for projects and reallocate credits to other projects. This will only happen if an organization is unable to provide written evidence to Commerce that their remaining credits will be utilized. **This process will begin July 1, 2025.**

WHO QUALIFIES FOR THE CREDIT?

The contribution credit is a tax credit for contributions made by business firms or individuals subject to Kansas income tax, Kansas privilege tax or the premium tax or privilege fees imposed on insurance companies. Businesses and individuals subject to Kansas income tax are eligible to receive a tax credit through this program. For more information, see [K.S.A. 79-32,197a](#). Donations must be \$250 or greater and the payment should come directly from either the business firm or the individual.

SPECIAL FEATURES OF THE CREDIT

Any tax credit issued by an approved organization that exceeds the tax liability of the contributor shall be refunded to the taxpayer (except in the case of a transfer). Credits must be claimed in the year they are issued. Except for transfers, tax credits may not be carried forward. Any tax credits transferred will become non-refundable as indicated on the K-60 tax form. Contributing entities not subject to Kansas taxation may transfer a credit to a firm or individual that does have a Kansas tax liability.

WHAT IS A RURAL COMMUNITY?

- Any city having a population of fewer than 15,000 located in a county that is not part of a standard metropolitan statistical area as defined by the United States Department of Commerce or its successor agency;

- Any city having a population of fewer than 15,000 located in a county defined as a standard metropolitan statistical area, if a substantial number of persons in the county derive their income from agriculture;
- Any city in a county defined as a standard metropolitan statistical area which is the only city in its county that has a population that exceeds 15,000.

The determination of whether a project qualifies as urban or rural is based on the mailing address for where all project interactions (mail, donations, receipts, etc.) will be sent. If the project site is not active and the headquarters will be receiving all project interactions, the address of the headquarters determines whether the project qualifies as urban or rural.

RURAL COMMUNITIES	URBAN COMMUNITIES
<15,000 in population	>15,000 in population
70% in state credits	50% in state credits
A \$1,000 Donation = \$1,000 for the project \$700 in credits for donor	A \$1,000 Donation = \$1,000 for the project \$500 in credits for donor

WHAT CONTRIBUTIONS QUALIFY FOR TAX CREDITS?

- **Cash** – documented with a copy of the check.
- **Services** – documented by payroll records and documentation of the “normal billing rate for nonprofits.” Normal billing rates are direct hourly wages without fringe benefits.
- **Stocks & Bonds** – documented by the transfer certificate and valued by the stock market price on the day of the transfer.
- **Personal Property** – valued at the lesser of its fair market value or cost to the donor and may be inclusive of costs incurred in making the contribution but shall not include sales tax.
- **Real Estate** – only when title is owned completely, without any limitations or conditions and is clear of encumbrances. Value is established as the lesser of two current independent appraisals conducted by state-licensed appraisers.

NOTE: Non-cash contributions must be directly related to the proposed project and included in the application budget.
