Kansas Continua of Care Communities

What is a Continuum of Care

- Continuum of Care (CoC) are planning bodies that coordinate housing and services funding for homeless families and individuals in a particular geographic region. CoCs are designed to promote a communitywide commitment to the goal of ending homelessness;
- CoCs access the Housing and Urban Development's (HUD) federal resources for housing and services to communities around the nation through the Continuum of Care Program (CoC) grant competition.
- CoC complete and submit a collaborative application on behalf of the local homeless service provider agencies
- A CoC Collaborative Application includes individual project applications submitted through a local competition process.

What is a Continuum of Care

- CoC refers not only to Housing and Urban Development's programs, but also the geographical location covered by a CoC program, and the body of people that participate in homeless services within that geographic area, including service providers, advocates, local government officials, and community members. CoCs cover many different configurations of geography.
- CoCs are governed by a charter established by the CoC.
- The "Balance of State (BoS) CoC" includes all the jurisdictions in a state that are not covered by any other CoC.
- The KS BoS CoC covers 101 mostly rural Kansas counties including Lawrence/Douglas
 County but excludes Wichita/Sedgwick County, Topeka/Shawnee County, Johnson County
 and Kansas City/Wyandotte County.
- The KS BoS CoC is divided into 9 regions for ease of coordination.

What is a Collaborative Applicant

- The Collaborative Applicant is the eligible applicant designated by the Continuum of Care (CoC) to
 - Collect and submit the CoC Registration,
 - Submit the CoC's Consolidated Application, and
 - Apply for CoC planning funds on behalf of the CoC during the CoC Program Competition.
- The CoC may assign additional responsibilities to the Collaborative Applicant so long as these responsibilities are documented in the CoC's governance charter.

Key roles

- An Applicant is an entity that applies for CoC Program funds from HUD
- A Recipient is the entity that receives the grant award and executes the grant agreement with HUD. A recipient may choose to subgrant part of all of the CoC Program grant to one or more subrecipients to operate the project, or the recipient may operate the project directly.
- A Subrecipient is an entity that receives a subgrant from the recipient to carry out the operation of the project.
