

H-2A RV Inspection Guide

*To prepare for your H-2A housing inspection, please reference the list below.
In order to be approved, the housing must meet all applicable safety and health standards.*

- Clean and manicured (outside and inside RV)
- Windows and screens in good condition (no cracks or tears)
- Kitchen table and chairs/seating
- Kitchen stocked with enough cooking equipment and utensils for each tenant
- Refrigerator
- Trash can *with lid*
- Beds up off of the floor
- Bedding made up or stacked on bed
- Adequate storage for each tenant
- Bathroom equipped (toilet paper)
- Working heating and A/C unit
- Working smoke detectors: kitchen, living room, and bedroom areas
- First Aid kit
- Fire extinguisher
- Slides Extended
- Electricity Connected

We will also need the following information:

- Make
- Model
- Year
- VIN #
- Tag # with State

If you are able to provide a copy of your RV registration, we can obtain the information from there.
