Project Date: Jun 2022 - Aug 2025

Project Summary

The Johnson County Community College project included the purchase of land and building a facility with dedicated range space which increased the capacity of the Commercial Driver's License Training program.

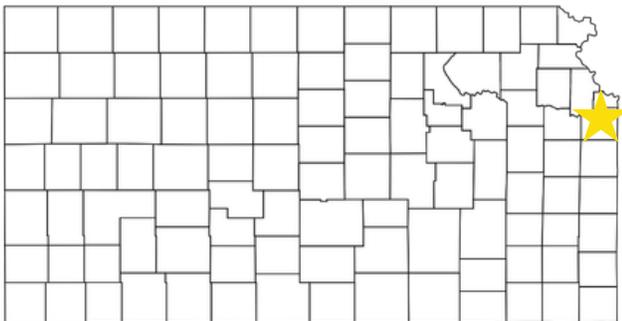

Goals and Objectives

Goal: Enhance access to post-secondary education in the CDL transportation field.

Objective: Construct a new CDL training facility.

Location

Overland Park, Kansas

Budget Overview

- **Grant:** \$2,538,502
- **Match:** \$2,538,502
- **Total Budget:** \$5,077,004

Expense Categories:

- **Construction:** \$4,077,004
- **Land Purchase:** \$1,000,000

Grantee Information

JCCC is an accredited community college offering small class sizes, experienced instruction, and state-of-the-art facilities. The Workforce Development and Continuing Education branch offers courses to enhance career development and knowledge to boost job productivity and career potential.

Target Population

The target populations for the project included individuals pursuing a CDL in the transportation industry.

Sustainability

Johnson County Community College will attain sustainability through revenue generated from student and company enrollment in the CDL program and grants to support on-going growth.

Activities and Timeline

2023:

- Purchase of land completed

2024:

- Site work and Construction completed

Outcomes

This state-of-the-art facility will enable JCCC to increase classroom capacity and provide more in-person training with a designated training area.
